TITAX levers are more stable on the bike than any other lever on the market. TITAX levers don't shake. It gives better reaction to the bike in any conditions and situation. THE BEST STABILITY EVER!

TITAX levers have a special ERGONOMIC design. It gives better feeling to the rider. TITAX levers give immediate response to the rider - it means more safety. Our levers are made from the best only certified materials and tested piece by piece.

**HANDMADE CONTROL!**

TITAX levers are used for their attributes by the BEST Racing teams and Racers worldwide.

All versions available in this colors:

Black Silver Chrome Titan Gold Green Blue Red

**NEW  
LEVERS**

**CHAMPIONS VERIFIED**

TITAX Product are highly requested by many top racing teams in World Superbike Championship. Let's mention just a few of them: STIGGY RACING - Leon Haslam, HONDA PARKAGLAR - Eugene Laverty, YZF YAMAHA - Tata Pradita, MS RACING - Matej Smrz, Ondra Jezek, Barry Liam Burrell and many others....

# CLUTCH AND BRAKE EVO LEVERS

Our goal at TITAX is to concentrate on creating only the highest quality products available. We are always trying to be a step ahead in the development, quality and aesthetic of anything offered on the market.

Our latest addition is the new TITAX EVO lever - the only truly ergonomic lever on the market.

We call them the "DIAMOND" among all adjustable levers. The TITAX EVO lever has a curvature along its full length very close to that of some of the OEM levers. All adjustable levers except for the TITAX EVO lever have a strictly linear responsiveness. Some riders and racers don't like this because they don't provide enough feel, rendering a limited functionality of the levers. Control under braking is not as precise and their sensitivity is not always optimal. The design of the TITAX EVO offers the greatest feel and control possible, providing greater confidence particularly during technical riding manoeuvres. It is a design that is completely different from anything else currently offered on the market, a product that is absolutely EXCLUSIVE, with precise bevelled edges. This is what gives the TITAX EVO lever its shape and the feeling of a real DIAMOND.

The TITAX EVO is the ONLY ONE which joins all of the BEST attributes: ADJUSTABLE, ERGONOMIC, COMFORTABLE AND PERFORMING

USED in MOTO 2 and WSBK !

TÜV APPROVED!

TITAX CATALOGUE BY BIKES 2017

All versions available in this colors:

Black Gold Blue Red

# FORGED ALUMINIUM WHEELS

MotoGP and Moto2 technology. Like all Titax products these wheels are used and tested in the heat of battle in the most competitive race series on the planet. IAMT have chosen TITAX as their official wheels for MOTO GP and MOTO 2 projects!

The TITAX wheels mult-step manufacturing process starts from a single solid piece of high grade aerospace aluminum. High pressure forging (30 thousand tons) is then used to further improve the grain structure.

This high pressure forging is the only way to create the strongest and stiffest finished product. The forged blanks are then machined on Computer Numerically Controlled (CNC) milling machines to ensure that bearing surfaces, etc are perfectly true. For the rear wheel we start with a 25 kg piece of the forged aluminum, for the front 15 kg. When the whole process is finished than the weight of the rear wheel (17'5,5) is from 4.6 kg (fully equipped Moto2 Type 1.01) and the front wheel is from only 2.75 kg (fully equipped Moto2 Type 1.01) !! In total it gives more than 3,8 - 7,2 kg weight saving compare to O.E.M. wheels depends on the model. Load weight for static wheels is on the front wheel is 295 kg, on the rear wheel 375 kg.

TÜV APPROVED!

TITAX CATALOGUE BY BIKES 2017

All versions available in this colors:

Black

# ADJUSTABLE CLIP ONS

TITAX comes with the revolutionary Adjustable CLIP ONS with the widest range of the adjustment from 3° till 11°. The full range of the movement up and down is 40 mm. The other producers bent the tubes which make the tubes softer. This can be danger for the rider.

TITAX is producing the tubes from one solid piece of the forged billet aluminium. TITAX tube is not common tube. It is full material, where we have to make drilling and other arrangements on our „state of the art“ CNCs. Of course it requires more work. But we love to do it. We want to give TITAX user the BEST PRODUCT and the additional advantages during the RIDE ! Thanks to that TITAX guarantee the best stiffness and confidence in the hardest possible conditions. USED in MOTO 2!

**250% more!**  
**No.1**

**Additional features:**  
Includes, clamps, bars, stainless steel bolts.  
Racing spec MotoGP style fork clamp. A must for track bikes.  
Fork Clamp made from 7075 T6 Aluminium  
Diameters: 39mm-58mm

TÜV APPROVED!

**CHAMPIONS VERIFIED**

TITAX Product are highly requested by many top racing teams in World Superbike Championship. Let's mention just a few of them: STIGGY RACING - Leon Haslam, HONDA PARKAGLAR - Eugene Laverty, YZF YAMAHA - Tata Pradita, MS RACING - Matej Smrz, Ondra Jezek, Barry Liam Burrell and many others....

3° - 11°

TITAX CATALOGUE BY BIKES 2017

# ABOUT US

THE TITAX HIGH PERFORMANCE PRODUCTS ARE THE BEST SOLUTION FOR THE GENUINE RACERS TITAX THAT IS THE ULTIMATE SOLUTION WE BEGIN WHERE THE OTHERS HAVE FINISHED!

## ABOUT TITAX COMPANY

Our company was founded at 1998 by two motorcycle enthusiasts. Reason for establishing this company was the urgent need to offer an exceptional products for the racers. Thanks to the hard work and continual development TITAX grows significantly in the last years. Today in 2017 in TITAX already work more than 30 people in our own factory in Vsetin in Czech Republic – Europe Union. The whole process is provided under the ISO 9001 requirements. TITAX High Performance Products are TÜV Rheinland certified.

TITAX products ever since the beginning are manufactured on the highest possible levels of the „state of art technology“, thanks to the very best CNC and Laser Cutting machinery, and coupled with an intensive metalurgical laboratory and heavy-duty field testing practice. We are using our own TITAX development center as well as an independent metalurgical and automotive laboratories TÜV for our testing and chemical analysis. And who could be more adequate and qualified for heavy duty field testing than the BEST WORLD SUPERBIKE Racing Champions like Mr. LEON HASLAM, Mr. KUBA SMRZ, Mr. JOHN HOPKINS, Mr.EUGENE LAVERTY – Vicechampion in WSS 2009 and with many others. TITAX cooperate very closely with such a teams like YAMAHA FRANCE GMT 94, HONDA STIGGY RACING, YAMAHA MG COMPETITION, HONDA PARKALGAR, MS RACING, TRIUMPH TATI TEAM, etc.

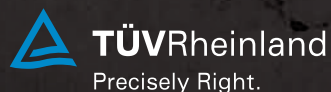

**TITAX products are made by riders**  
**ENJOY the RIDETOP PERFORMANCE & TOP CONTROL**

TÜV NUMBER - KBA 91110

ISO 9001: 2000

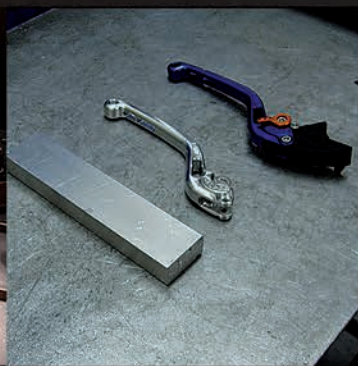

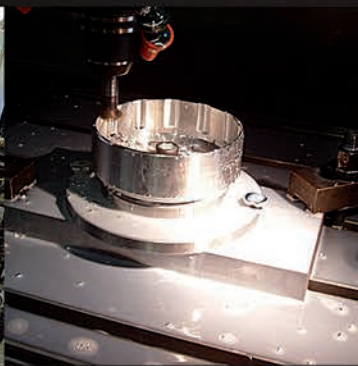

TITAX PRODUCT ARE USED IN

Used in WSBK, WSS,  
World Endurance,  
IDM, BSB, etc.

## CAUTION:

Our products are available in several other specialized aesthetic configurations. One of the priorities in our work is to bring in graphic design elements to protect the TITAX brand against copying. Several PATENTS applied.
